www.linkedin.com/in/basma-abdullah | [Basma Abdullah | Portfolio](#)

Data Analyst with hands-on experience in analyzing complex datasets, developing executive Power BI dashboards, and translating data into actionable insights that support business and operational decision-making. Skilled in leveraging **SQL, Python, Advanced Excel**, and **Power BI** for data analysis, visualization, reporting, and performance monitoring. Combines strong analytical thinking and problem-solving skills with the ability to identify trends, improve reporting efficiency, and deliver data-driven solutions that create measurable organizational value.

Work Experience

- Data & Automation Analyst (Internship → Project-Based)** Oct 2025 – Present
Ministry of Human Resources and Social Development, Madinah
 - Developed a **multi-criteria beneficiary prioritization model** with automated scoring and ranking; the initiative led to a formal **Memorandum of Understanding with Medina Regional Municipality**.
 - Developed **3 executive Power BI dashboards** supporting leadership monitoring and decision-making.
 - Designed an **end-to-end automation workflow** for the orphan supervisory team in Madinah, reducing a multi-day process to under one day.
- Information Systems Specialist** Jun 2026 – Jul 2026
Posh Salon & Spa, Madinah
 - Analyzed **90K+ sales invoices**, built a **4-page Power BI dashboard**, and applied **Python-based Market Basket Analysis** alongside 3-year expense analysis.
- Information Systems Analyst** Aug 2024 – Feb 2025
Medina Regional Municipality, Madinah
 - Contributed to the **2027 Digital Transformation Strategy**, developed **2 Power BI dashboards** for strategic and IT performance monitoring.
 - Co-developed the **Madinah Innovate platform**, including methodology, Figma interface design, front-end development, ERD design, and SQL implementation.
- COOP Trainee** Jan 2024 – Feb 2024
Medina Regional Municipality, Madinah
 - Rotated across **4 functions** spanning IT, data, digital products, and customer experience, supporting analysis and operational reporting.

Academic Project:

Falak App – Graduation project Sep 2023 – May 2024
Developed a child tracking and incident reporting system by designing the SQL database, implementing REST APIs, integrating GPS tracking services, and building real-time location monitoring with intelligent alert mechanisms and AI-assisted report validation.

Education:

Bachelor's in Computer Information Systems, Taibah University (First Class Honors, **4.94/5**) May 2024

Certifications

- Artificial Intelligence Essentials by IBM (Jul 2025).
- Foundation Program in Artificial Intelligence by King Saud University (Aug 2025).
- Digital Transformation (Beginner Level) by Satr Academy (Oct 2025).
- Big Data – Future Skills (Jul 2023).

Honors & Awards:
